

Annual Average Ambient Concentration - Arsenic

Average concentrations include samples where arsenic was not detected at 1/2 the detection limit.

Annual Average Ambient Concentration - Cadmium

Average concentrations include samples where cadmium was not detected at 1/2 the detection limit

Annual Average Ambient Concentration - Total Chromium

Average concentrations include samples where total chromium was not detected at 1/2 the detection limit

Average Annual Ambient Concentration - Lead

Average concentrations include samples where lead was not detected at 1/2 the detection limit.

Average Annual Ambient Concentration - Nickel

Average concentrations include samples where lead was not detected at 1/2 the detection limit
